

2008 EUROPEAN SYMPOSIUM & WORKSHOPS

Munich, Germany ArabellaSheraton Bogenhausen

April 14 - 15, 2008

We are pleased to announce the **2008 Engineous Software European Symposium & Workshops**. This event will showcase how companies are using the latest technology innovations to reduce cost and improve overall design. This event provides an excellent forum for participants to learn more about advanced technology, simulation data management, process integration, and design optimization.

Symposium Agenda

The 2008 European Symposium will run for two days. Speaking tracks will showcase leading manufacturing companies, market analysts, academics and industry experts from around the world.

➤ **OVER 15 GENERAL SESSIONS**

Presentations will include: Design automation and exploration strategies, process simulation and optimization, manufacturing CAE and processes, multidisciplinary and multi-objective optimization, distributed & parallel computing, and more.

Workshop

Technology seminars will be held the morning of March 14, 2008 from 9:00-12:00. Topics will be announced.

Stay tuned — more event details to be announced!

Call for Papers Early Registration:

We are currently taking papers for the symposium speaking tracks. Please visit our website to submit a brief abstract:
